

# OC HT 1

BLACK DIAMOND™  
SERIES

Pinnacle has developed the first high performance on-ceiling speaker that delivers audiophile performance **ideal for the retro-fit and Multi-Dwelling Unit (MDU) markets - the OC HT 1.**

**Available as a 3-pack or single, OC HT 1** is the ideal sonic solution when ceiling placement is the preferred location for your music/Home Theater system. The circular cabinet of varying depths enhances the bass response by virtually eliminating standing waves. This cabinet design results in cleaner, better defined bass with an improved attack / decay ratio.

Pinnacle recognizes that product placement is a function of room acoustics, aesthetics and practicality with regard to structural and space considerations. For the audio purist we recommend on-wall positioning at ear level, but for those who wish to position their music/Home Theater on the ceiling, the **OC HT 1** is the perfect solution, particularly for the retro-fit and MDU (multi-dwelling units) markets.

## Special Features
