

Pinnacle's TRI-CHANNEL™

The Centerpiece for Your Home Theater System

Ideal for 50" Flat Panel TVs & Up

QP 15

3 Pivoting Tweeters for
Optimal Dispersion Pattern

Pinnacle's **QP 15** TRI-CHANNEL™ speaker is ideal for all flat panel TVs 50" and up. This high performance LCR speaker incorporates a 15-driver array, delivering all three front channels (left, center and right) in one sleek cabinet. The QP 15's three pivot tweeters (one per channel), enable aiming the high frequencies for an optimal, customized dispersion pattern.

The QP 15's ultra-flat, slim-line design comes in silver and black, with both* silver and black grilles to match any décor. User-friendly bracket mount allows for flush, horizontal on-wall mounting. Threaded inserts also allow for tilt bracket mounting with Omni-mount or other aftermarket brackets. In addition to its stylish design, the **QP 15** uses the same ultra lightweight, patented purple plasma vapor-coated tweeter used throughout the popular Quantum Series, providing exceptionally linear and stable sonic performance.

Special Features

- Space-saving 15-element TRI-CHANNEL™ design ideal for all flat panel TVs 50" and up.
- Three pivoting tweeters (one per channel) enable aiming of sound for optimum dispersion pattern
- Solid extruded aluminum construction for minimum resonance
- Includes Slide-fit™ flush wall mount bracket for horizontal orientation
- Threaded inserts in place for pivot bracket mounting
- Ultra-lightweight, patented plasma coated, titanium dome pivot tweeters for superb detail
- Internally braced cabinets for minimum resonance
- Carbon graphite woofers and mid-bass drivers for smooth linear response
- Video shielded to allow placement near a TV without interference
- Gold-plated binding posts for a secure connection
- Automatic overload protection circuit prevents failure
- 10-Year transferable warranty on parts & labor

Specifications

System Type: (3) internal chambers each housing a 5-element, Quasi 3-Way, Acoustic Suspension speaker. (15 drivers, 3 channels, all in one cabinet)

Component Drivers: (3) 1" pivoting titanium dome tweeters with patented plasma vapor treatment for superb detail at the highest frequencies, (6) 3" carbon graphite midranges with rubber surrounds, (6) 3" carbon graphite woofers with rubber surrounds

Frequency Response: 80 - 21 kHz

Crossover Frequency: 300 Hz & 5kHz

Operative Power Range: 15 - 250 Watts

Nominal Impedance: 8 Ohms

Overall Dimensions: 57 ³/₁₀" W x 4" H x 3 ⁷/₈" D (including mounting bracket)

Cabinet Construction: Solid Extruded Aluminum

Finish: Silver or Black

Weight: 19 lbs. each
